

Nancy J. Berry is the recipient of the MSBA President's Award for 2009!

Moore, Costello & Hart is proud to announce that Nancy J. Berry, a partner in the firm, will receive the Minnesota State Bar Association's President's Award for her work developing continuing legal education programs for the MSBA's Health Law Section over the past two years. The President's Award is given by the MSBA to recognize one member who has provided outstanding service and devoted substantial time to the Association's mission and activities.

A partner with Moore, Costello & Hart's health and business law practice areas, Nancy has served as Program Chair of the MSBA Health Law Section for the past two years. As Program Chair, Nancy organized monthly CLE programs for Health Law Section members. Nancy was selected to receive the President's Award for her tireless work as Program Chair of the Health Law Section and her efforts to include all members of the Section, not just those in the metro area. The President's Award is one way for the MSBA to recognize Nancy's accomplishments and service to the legal profession and to thank her for her dedication.

The President's Award is the only award selected by the bar president. Michael J. Ford, president of the MSBA, will present the award to Nancy at the MSBA's annual convention in Duluth, Minnesota June 25-26, 2009.

Moore, Costello & Hart also is proud to announce that the MSBA Health Law Section recently elected Nancy to serve on the Health Law Section Governing Council.
